FROM THE SOUTH What They Generally Think of

[Special Dispatch to the concern of the Mcarmassesso, Tenn, April M. 1863.

The leading editorial in the Atlants Intelligencer is devoted to discussion of the probabilities of a union between Rosecrans and Grant. It believes that Rosecrans will be re-inforced; and that the great battle of the war will come off between Nashville and Chatta-nooga; if not, Rosecrans will fight no great battle this summer.

The Jackson Appeal says Grant's army li-evidently being removed, and its most proba-ble destination is the Cumberland and Ten essee. Enough, it says, will be left behi amuse our forces at Vicksburg while t

Johnston's sturdy soldiers, with the hope of annihilating them, and thus opening the way to the Massisdppi Valley, and the heart of the Confedersty. This grand clash of arms is intended to give the quietus to the rebellion, and the hope which this movement has inspired, may have the effect of boistering up the credit of the Lincoln Government for a while. The Northern people have great confidence in Gen. Roserns, and, beyond doubt, he is the most will and best General in their service.

The Appeal cays, another hypothesis is that ly and best General in their service.

The Appeal says, another hypothesis is that
the Federal forces are to be concentrated at

"ARRIVAL OF YANKEE PRISORERS—Seven Yankee prisoners, all belonging to the 47th New York regiment, captured on Wednesday morning in a small boat, while making their way from Fort Pulsaki to the new Yankee bettery erected on Ossabaw Sound, were brought to this city on Saturday and lodged in jail. Their names are as follows: Capt. Edward Eddy, company A; Capt. Henry Arnoid, company D; privates George Johnson, John Johnson, John W. Droscher, George Sole, William J. Lyon—all of company A.

"One of the prisoners captured in this brilliant affair, named William Lambert, was seriously wounded, and left behind.

"The capture was effected by a detachment of the Phenix regiment, of Savannah, from company D, sonsisting of Capt. E. H. Harrison, Lieuts, John J. Egan, W. E. Griffin, and fourteen privates, with Dr. Francis Fox, who voluntaered for the adventure.

"Among the trophics of the capture are a fine metalic boat of great value, ax splendid rides, one officer's sword, two fine navy pistols, ten gallens of brandy, and, more valuable to the Confederacy than all, perhaps, the mail, with letters and official dispatches, which the party were couvering from Hilton Head to the land and naval forces at Ossabaw Island, where the 47th New York regiment are stationed."

In the absence of any startling intelligence, in the way of dres and riots, it is somewhat difficult to find material for a new letter from this city—unless I mention the usual life and activity in all avenues of business, since the commencement of the season.

The first news of the opening of the Straits was first here on Sunday night, by a large facet of propellers. Since then the river has been full of vessels of all descriptions, engaged in unloading or taking on cargoes for satern ports. The spring season has fairly compenced, and promises to fully equal if not exceed any of its precedents. This fact is extremely gratifying in these times of war and desolution; and, were it not for our daily news from the field of battle, it would be difficult, with these evident signs of peace and ADJES, READ! Our judicial election, the result of which, for a day or two, hung tremblingly in the balance, is at length decided beyond a doubt, by the re-election of Judge Dixon, by not less than 4,000 majority. This result has been a matter of rejoicing and gradification to every loyal and particule cilizen, while it has been the means of weakening the Copperhead element to a considerable extent. Our tramph would have been still more complete and overpowering, but for the treacherous action of the farm mortgage interest in this State, who chose to sacrifice their principles of hon-DOMESTIC AND FOREIGN EXCHANGE n, Saak Notes, Land Warranta, Specie, &c., &c. onits received. A few days since our citizens were somewhat surprised to hear of the removal of Post-matter Lockwood, to be succeeded by Hon. C. L. Sholes, of this city. As no cause was assigned for this sudden change, Mr. L., having received no official information of it, proceeded to more to Washington for the purpose of vindicating himself before the powers that be. In the meantime the new appointee had received his oppointment, but was as yet without a commission and was a waiting the arrival of it before entering upon the discharge of his new duties. The commission never came, but Mr. Lockwood returned on the afternoon train yesterday, with a triumphant smile, which speaks more plainly than words of the successful result of his visit to Father Abraham. Mr. Lockwood has proved himself a faithful and efficient offsee, and the sympathy of the citizens has been with him from the first. W. F. COOLBAUGH & CO., BANKERS, CHICAGO. EAFNESS, BLINDNESS W. F. Lexcusy as Bailer.—Lucius Howard was arrested on Thursday, at the instance of Marcus Ranstead, for collecting a draft of \$50, and getting from the express office, \$25.50. Last Janpary, Mr. Banstead being sick, got Mr. Howard to go and collect these amounts to him. He went, and collecting them, approprised the money to his own use, avoiding and keeping away from Mr. Ranstead, and going to Iowa. He recently returned, and was arrested and examined before T. B. Brown, eq., and held to appear at the Be-

corder's Court. In the sum of \$500.

FERRONAL.—Capt. R. Nejson Haydon, of the 19th Hillnois cavalry, Col. Voss, has resigned, on account of physical disability for the service, occasioned by a wound received white in the disclarge of his duty. Capt. Haydon has been long a resident of this city, and his many friends have not been disappointed in him, as a brave soldier and a competent officer. His gallantry under fire has been mentioned in dispatches to headquarters, and he has been personally commended on the field by his commanding officer. His resignation will be a severe loss to his regiment.

tent has it been prolonged and enlarged upon, that her direct examination was not concluded until just before mon. The afternoon was spent upon her cross-examination. Mrs. Everett's testimony will be looked for with anxiety, and read to-morrow with intense interest, as through it considerable light is thrown upon this obscure conspiracy. At the hour of adjournment (4 p. m.) to-day, her examination had not been concluded; however, as the Court sedjourned over to Tuesday next, at 3 p. m., it is doubtful whether Mrs. Everett can remain. It is more than probable she will return to Cieveland to-morrow. The presentation to the court of to-day's Tainuxa, containing the direct, re-direct and cross-examination of Mrs. White, was a stunner, not only to the Bishop, but to all present. "That leak," instead of being discovered and stopped, is daily increasing in volume. The "Investigating Committee" are still at work, and as yet unable to do more than report progress. When in Committee of the Whole, with this subject under consideration, the Bishop sugrested to Mr. Steole, 40 compare the printed testimony with his notes, to see if the reporters had not in some way got a copy of them. This was done, and they did not contain his peculiar remarks or expressionsthough correct in facts, they were not identical with the copy kept by any one in the room. After skeleton keys and bribes were freely discussed, the propriety of putting on mre and secure locks was decided upon. The connecl thought this unnecessary as none of the papers were left there at night; and that during the noon recess, the reporters were always at the hotel, and, remained there until the Court-convend. The Bishop sgain alluded to the impossibility of any one having access to his motes—stated that they were secured from public gaze by two locks; that ne mortal had handled his notes, from the beginning of the trial, except himself. Thus the matter stands at the close of this week's investigation; and the only light thrown upon the subject, was by Mr. Hager, when

The Sixth Ward.

The large vote policed in the Sixth Ward on Tuesday last renders it a matter of no doubt whatever that trauds of the most glaring character were perpetrated there. At least three hundred persons voted who do not reside in the Ward, and the whole matter is undergoing investigation. STADRING ATTALY.—Issae Lawrence, a sallor employed on board the schooner Maseppa,
Captain Burke, was arrested on Thursday
night, and examined in the Police Court yesterday morning, for severely stabbing another
sallor named Peter Coleman. It appears that
Coleman and several others belonging on
another vessel, visited the Maseppa on Thursday afternoon, and a very slight alterestion,
accompanied by very few, if any words, stock
place between the wounded man and the prisoner. In short, without much notice, Coleman first struck Lawrence and knocked him
down. As soon as he recovered his feet, the

As soon as he recovered his feet, the orisoner drew a shee h knife and stabled belerant in several places—in the left side two orthree times, once in the left arm, and cut in ugly gash across the right abdomen. The wounded man was conveyed to the Marine diospital and put in care of the sargeons. The wounds, though, severe, are not considered fatal, unless through ensuing inflammation, awrence was held to ball in the sum of \$1,-00 for his appearance at the Recorder's

Attacking Union Men.
The organ of treason in this city has again commenced its qualaughts upon Union business men for refusing to trackle to disloyalty. In the issue of Thursday is a contemptible article upon Messrs. Crane Broa., the well known machinists, who are among our most prominent, honorable and reliable manufacturers. The attack was made because they discharged their book-keeper for wearing a Copperhead badge.
